

## **Reporting Domestic Terrorism to the State**

Steven Magee had to call the Sheriff to his home due to a suspected utility company impostor who was refusing to show his Tucson Electric Power (TEP) customer service identification card. Steven Magee is an electrical fraud researcher and realized that his health, safety and reputation was at risk in the presence of a suspected impostor who had shown up to his home unannounced. Steven Magee had called 911 to be protected from this suspected impostor due to his fears. Instead the Sheriff engaged in the harassment of Steven Magee by illegally disconnecting his electricity for eleven nights. Steven Magee had to place two 911 calls reporting ongoing harassment after unsuccessfully trying to get his electricity reconnected on four occasions. The second 911 call resulted in the Sheriff escorting the utility company to his home and reconnecting the electricity. Note that this was the second occurrence of a suspected impostor at Steven Magee's home that had been reported to the Sheriff.

Steven Magee is a Chartered Electrical Engineer and author of Electrical Forensics. He collects and examines the police reports and submitted evidence and finds blatant fraud. He reports it to the Sheriff for thorough investigation and subsequently finds that they claim to have lost the submitted evidence and have made the complaint completely disappear from their Internal Affairs system!

Given that it is clear that he is being subjected to ongoing harassment from the Sheriff, he decides to elevate the complaint to the State of Arizona. He regards the Sheriff's and Tucson Electric Power (TEP) company's behaviors in this case as willfully terrorizing a law abiding member of the USA public at their own home. The definition of domestic terrorism in the USA is:

*“Under current United States law, set forth in the USA PATRIOT Act, acts of domestic terrorism are those which: (A) involve acts dangerous to human life that are a violation of the criminal laws of the United States or of any State; (B) appear to be intended – (i) to intimidate or coerce a civilian population; (ii) to influence the policy of a government by intimidation or coercion; or (iii) to affect the conduct of a government by mass destruction, assassination, or kidnapping; and (C) occur primarily within the territorial jurisdiction of the United States.”*

[https://en.wikipedia.org/wiki/Domestic\\_terrorism\\_in\\_the\\_United\\_States](https://en.wikipedia.org/wiki/Domestic_terrorism_in_the_United_States)

Given that they illegally disconnected the electricity to the home of a person on a prescription RX-Only life support machine that only functions on AC utility electricity, it is clear that his life was put at risk. Indeed, this may have been an intentional assassination attempt by the fraudulent electrical utility company and the corrupt Sheriff on a fraud researcher that has been investigating both of them for the last few years.

This is the complaint that he files to the [Arizona Counter Terrorism Information Center \(ACTIC\)](#):

*Dear Arizona Counter Terrorism Information Center (ACTIC),*

*I was subjected to domestic terrorism activities by the Tucson Electric Power (TEP) company and the*

*Pima County Sheriff. I am now reporting this domestic terrorism activity to you for full investigation.*

*The definition of domestic terrorism in the USA is:*

*“Under current United States law, set forth in the USA PATRIOT Act, acts of domestic terrorism are those which: (A) involve acts dangerous to human life that are a violation of the criminal laws of the United States or of any State; (B) appear to be intended – (i) to intimidate or coerce a civilian population; (ii) to influence the policy of a government by intimidation or coercion; or (iii) to affect the conduct of a government by mass destruction, assassination, or kidnapping; and (C) occur primarily within the territorial jurisdiction of the United States.”*

*[https://en.wikipedia.org/wiki/Domestic\\_terrorism\\_in\\_the\\_United\\_States](https://en.wikipedia.org/wiki/Domestic_terrorism_in_the_United_States)*

*Given that they illegally disconnected electricity to the home of a person on a prescription RX-Only life support machine that only functions on AC utility electricity, it is clear that my life was put at risk. Indeed, this may have been an intentional assassination attempt by the fraudulent electrical utility company and the corrupt Sheriff on a independent fraud researcher that has been investigating both of them for the last few years.*

*I have now completed reviewing Sheriff reports concerning the illegal disconnection without notice of my home from the electrical utility system and the extortion/blackmail that resulted. I have identified the following Federal United States of America (USA) Laws, State of Arizona Laws and Tucson Electric Power (TEP) customer service directives that were broken at my home on the 19th February 2016 and during the subsequent illegal eleven night long power outage by Tucson Electric Power (TEP) and the Pima County Sheriff:*

- 1. Harassment: Intimidation and inducing fear into a customer that has multiple documented health conditions by the withholding of customer service identification cards. This harassing behavior has been sustained across multiple Sheriff's 911 calls and five TEP workers that have attended the home. “TEP warns to always check the IDS of employees or contractors.” <http://www.fox10tv.com/story/27896572/scams-targeting-tep-customers-generate-hundreds-of-complaints>*
- 2. Fraud: Evidence submitted did not match the “Evidence” dialog in the Sheriff's report. The submitted evidence only appears to show meter reads from 9th December 2015 through to 19th February 2016, just two months and ten days that total eighty kilowatt hours of electrical consumption. The “Evidence” dialog in the Sheriff's report does not match this and is blatantly fraudulent. The “Evidence” dialog does not match the Tucson Electric Power (TEP) billed electrical consumption for the home over the past year and is blatantly fraudulent.*
- 3. Misdemeanor Assault: One of the suspected impostors hit the customer. “An assault as a class 3 misdemeanor simply requires the State to prove that a person knowingly touched another person with the intent to injure, insult or provoke another person. The State does not need to prove that an injury occurred at all. Rather, all that is needed is for a person to touch another person with an intent to injure or insult or provoke the other person. A conviction for a class 3 misdemeanor can result in a fine and up to 30 days in jail as well as probation, classes and community service.” <https://www.avvo.com/legal-guides/ugc/misdemeanor-assault-in-arizona>*
- 4. Rule R14-2-211B: None of the State Of Arizona Administrative Code legal conditions existed at*

- the home for a legal forced disconnection of utility electricity without notice to occur.*
5. *Rule R14-2-211B: The customer was not informed at the time of the disconnection without notice what the State Of Arizona Administrative Code legal reason was for the forced electrical utility disconnection.*
  6. *Rule R14-2-211B: The utility company declined to specify a State Of Arizona Administrative Code legal reason for the forced disconnection of utility electricity without notice to the home during the eleven nights that the home was disconnected.*
  7. *Rule R14-2-211A: They disconnected without notice the home of a person on a "RX-Only" prescription life support machine that requires AC electricity.*
  8. *Rule R14-2-211A: They rendered the home uninhabitable for a person on a "RX-Only" prescription life support machine that requires AC electricity.*
  9. *Rule R14-2-211D: No legally required written notice period had been given for the unannounced electrical disconnection of the home of a customer on a "RX-Only" prescription life support machine that requires AC electricity.*
  10. *Rule R14-2-211E: At least five days of written notice of electrical disconnection were not provided to the customer who is on a "RX-Only" prescription life support machine that requires AC electricity.*
  11. *Rule R14-2-208D: They refused to reconnect the utility electricity after four separate requests by Steven Magee. He eventually had to place two 911 calls reporting ongoing harassment by TEP to their customer to have them escorted to the home by the Sheriff where they were forced to reconnect the home as a result of the 911 calls.*
  12. *Harassment: They used suspected impostors to perform the illegal disconnection without notice of utility electricity: "TEP warns to always check the IDS of employees or contractors." <http://www.fox10tv.com/story/27896572/scams-targeting-tep-customers-generate-hundreds-of-complaints>*
  13. *Public Harassment: Illegal disconnection of the electricity occurred in full view of the customers neighbors with a Pima County Sheriff present. Three utility trucks and one Sheriff's truck were at the home which is in full view of many neighbors.*
  14. *Trespassing: The suspected impostors had been legally trespassed from the property by the customer and they then trespassed onto the customer property to perform the illegal electrical utility disconnection: "TEP warns to always check the IDS of employees or contractors." <http://www.fox10tv.com/story/27896572/scams-targeting-tep-customers-generate-hundreds-of-complaints>*
  15. *Extortion/Blackmail: Attempting to remove the customer's legal rights as a condition of electrical utility re-connection and prolonging the power outage by doing so.*
  16. *Daily Harassment: Willfully prolonging the power outage at the fully paid home causing hardship to the customer.*
  17. *Daily Harassment: Electrical utility disconnection of the home of a customer who is on an "RX-Only" prescription life support machine that only functions on AC electricity.*
  18. *Vandalism: Damage occurred at the customer home from the illegal prolonged power outage.*
  19. *Domestic Terrorism: An assassination attempt on Steven Magee.*

*I am now reporting these violations for full investigation. I look forward to seeing prosecution to the fullest extent that the law allows for all illegal activities that occurred at my home. You have my complete cooperation with pursuing justice according to Federal United States of America (USA) Laws*

and State of Arizona Laws. Please ensure that you use the same numbering above for your responses.

My evidence submission is as follows:

1. One DVD containing the following documents and video recorded evidence.
2. Document titled "Reporting Crimes Identified From Police Reports And Evidence"
3. Photograph showing Steven Magee using his RX-Only prescription medical life support machine titled: Disconnection Without Notice.
4. Twelve page document titled: TEP Termination Of Service Without Notice.
5. Thirteen page document titled: Tucson Electric Power (TEP) Suspected Impostor Sheriff Report.
6. Ten page document titled: What It Takes To Get The Sheriff To Harass A Customer
7. Nine page document titled: Targeted For Illegal Disconnection?
8. Electric Utility bill showing one year of historical usage.
9. Water utility bill showing one year of historical usage.
10. Gas Utility bill showing one year of historical usage.
11. Video recording titled: TEP forced disconnect complete.
12. Video recording titled: TEP Suspected Utility Company Impostor Hits Customer Slow Motion.
13. Video recording titled: Reporting Ongoing TEP Harassment to the Sheriff 29 February 2016.
14. Video recording titled: Reporting Harassment To 911 To Get Utility Electricity Reconnected.
15. Six page document titled: Utility Customer Service Account Marker

I hope that you will do the right thing and pursue this investigation fully to set an example to Pima County Sheriff, Tucson Electric Power (TEP) and the Arizona Corporation Commission (ACC) that domestic terrorism activities will not be tolerated at law abiding, fully paid customers homes with completely normal power consumption in Arizona, USA. Please note that all communication and all forms of replies are for public viewing and for publication to the internet. I look forward to your extensive written response regarding the outcome of this investigation shortly.

Yours sincerely,

Steven Magee CEng MIET BEng Hons  
Chartered Electrical Engineer

The letter was sent by certified mail with a return receipt on 19<sup>th</sup> December 2016 and their response is now expected shortly.

The definition of Assassinate: "To kill suddenly or secretly, especially a politically prominent person; murder premeditatedly and treacherously."

Regarding an electrical utility company assassinating a targeted customer with an illegal electrical disconnection, this is how it is known to work:

- The customer goes out and buys or rents an electrical generator and electrocute themselves during the connection or disconnection of the generator to their home electrical system.

- The customer goes out and buys or rents an electrical generator and makes the wrong connections to their electrical system. They are electrocuted by their own faulty home electrical system.
- The customer goes out and buys or rents an electrical generator and places it inside the home. This fills the home with poisonous carbon monoxide emissions. The person falls unconscious and dies in their sleep. This is known to kill entire families.
- The customer and their family are killed in a fire at the their home due to not having working smoke detector alarms.
- The customer and their family is killed in a fire caused by having to cook on camping stoves.
- The customer and their family is killed in a fire caused by having to burn candles.
- The customer and their family is killed by carbon monoxide poisoning caused by bringing the barbecue into the indoor kitchen.
- The customer is killed during a home robbery due to not having a fully functional home security system.
- In summertime, the customer dies due to heat exhaustion due to not being able to run their air conditioning system.
- In wintertime, the customer dies from hypothermia due to not being able to run their heating systems.
- The customer dies from being deprived of their RX-Only prescription life support machine that only functions on utility electricity.
- Their refrigerated RX-Only medications spoil in the heat of the home and the customer dies from the complications of RX-Only prescription drugs withdrawal.

As you can see from the above, an illegal electrical disconnection puts the customer at serious risk of illness, injury or death. The family and residents of the property are also at risk. The home may be destroyed by fire during the electrical disconnection. The non-functional alarm systems of the home may invalidate the home insurance policies and you may have to declare bankruptcy if the home burns down.

There is no guarantee for the utility company that their illegal disconnection will result in your death, but it is well known to the utility companies that you may die as a direct result of it. They have seen it happen before on numerous occasions. If you die, then it is a great result for the utility company. They are playing an illegal game of “[Russian Roulette](#)” with you. The longer they can keep your electricity disconnected, then the more likely it is to result in your death. If they keep on stalling the re-connection, then you are likely on their secret “[Hit List](#)”.

The police should always start out an investigation into the death of a person or a family whose home has been disconnected from a utility as a murder inquiry until it can be proven that they were not targeted by the utility company. Unfortunately, some of the deaths that have occurred in the past may well have been utility company “Russian Roulette” disconnection assassinations that were erroneously recorded as accidental deaths.

Utility company “Russian Roulette” disconnection assassinations typically involve:

- Carbon monoxide poisoning.
- Electric shock or electrocution.
- Fire.
- RX-Only doctors prescriptions.
- RX-Only life support devices.
- Failed fire and home security systems.
- Home invasions.
- Heat exhaustion.
- Hypothermia.

There are no shortage of excuses that the utility company will use to cover up the “Russian Roulette” disconnection assassinations. Law enforcement appears to ignore the “Russian Roulette” disconnection assassinations.

The definition of murder: *“The unlawful premeditated killing of one human being by another.”*

The definition of attempted murder: *“A person has planned to kill another person and was unsuccessful.”*

So if it can be proven that the illegal disconnection was aimed at causing the persons death or the death of the entire family, then law enforcement should be charging the utility company with murder if the person was killed or attempted murder if the person survived the illegal disconnection.

If law enforcement blatantly ignores the incident and refuses to fully investigate the extensive range of evidence, then they are probably under the control and influence of the utility company. You should avoid contact with such a law enforcement department, as they may fabricate a reason to shoot you dead.

If the “Russian Roulette” disconnection assassination attempt fails to kill you, then you should be on your guard. If you have come to the realistic belief that you are on the utility companies “Hit List” then beware. It may only be a matter of time before you are killed in suspicious circumstances. [Karen Silkwood](#) is probably the most famous of the suspicious circumstances deaths associated with energy companies. She was mysteriously killed in a strange car crash on her way to a meeting with the press. Hollywood documented the incident in the movie [“Silkwood”](#) starring Meryl Streep, Cher and Kurt Russell.

- Question: “When can a utility disconnect service?” Answer: “There are certain conditions under which the utility can disconnect you. Rule R14-2-211C of the Arizona Administrative Code states that after proper notice, the utility company may disconnect your service if you are in violation of any of the utility's tariffs, or for reasons such as:  
Failure to pay a delinquent bill  
Failure to meet or maintain your deposit.  
Failure to provide the utility company reasonable access to its equipment and property.  
Or when you break a written contract for service between you and the utility company.  
In addition, a utility company may disconnect service without notice for any of the following reasons:  
The existence of an obvious hazard to the safety or health of the consumer or the general population.  
The utility has evidence of meter tampering or fraud.”

- “Almost two thirds of home fire deaths result from fires in homes in which there were no smoke alarms, or the smoke alarms were not working.” <https://www.tucsonaz.gov/fire>
- “Electrocution is death caused by electric shock, electric current passing through the body. The word is derived from "electro" and "execution", but it is also used for accidental death.” <https://en.wikipedia.org/wiki/Electrocution>
- “Portable generators -- small combustion engines that turn a turbine to provide power on demand – are lifesavers during power outages from storms and other acts of God. But this portable lifesaver power source can turn into a killer by causing shocks or electrocution if you don’t set it up and use it correctly.” <http://blog.gentent.com/2015/10/how-to-take-electrocution-risk-out-of.html>
- “A good generator can get you through a power outage but it also poses safety hazards of its own including carbon monoxide poisoning, electric shock or electrocution and the risk of fire. Every year, people die in incidents related to portable generator use, reports the Consumer

Product Safety Commission.” <http://www.consumerreports.org/cro/news/2012/10/avoid-generator-risks-by-following-these-safety-tips/index.htm>

- Different jurisdictions have different definitions of what constitutes a prescription drug. "Rx" (R) is often used as a short form for prescription drug in North America- a contraction of the Latin word "recipe" (an imperative form of "recipere") meaning "take". [https://en.wikipedia.org/wiki/Prescription\\_drug](https://en.wikipedia.org/wiki/Prescription_drug)
- “Drug withdrawal is the group of symptoms that occur upon the abrupt discontinuation or decrease in intake of medications or recreational drugs....Many prescription and legal nonprescription substances can also cause withdrawal symptoms when individuals stop consuming them, even if they were taken as directed by a physician...There are different stages of withdrawal as well; generally, a person will start to feel bad (crash or come down), progress to feeling worse, hit a plateau, and then the symptoms begin to dissipate. However, withdrawal from certain drugs (benzodiazepines, alcohol, glucocorticoids) can be fatal..., many drugs should not be stopped abruptly[5] without the advice and supervision of a physician, especially if the medication induces dependence or if the condition they are being used to treat is potentially dangerous and likely to return once medication is stopped” [https://en.wikipedia.org/wiki/Drug\\_withdrawal](https://en.wikipedia.org/wiki/Drug_withdrawal)
- “High school freshman shot to death in apparent robbery” <http://www.cbs46.com/story/20385695/high-school-freshman-shot-to-death-in-apparent-robbery>
- “The move was prompted by the shooting death of Mohammad Islam during an attempted robbery Sept. 25 at the Big Red Food Mart. The shooter has not been apprehended, a situation that police investigators say has not been helped by the fact that security cameras inside the store were not working at the time of the crime.” <http://www.securitysystemsnews.com/blog/clerk-s-death-brings-call-mandatory-video-surveillance>
- “But for the most part, a potential burglar needs to be aware of whether there is an alarm system; if so, how to circumvent the alarm; and where valuables are kept within the house...Even if the invaders gain access by...a ruse (such as delivering documents...), once they encounter the inhabitants of the home they usually employ overwhelming force until the inhabitants are subdued or incapacitated.” <https://www.stratfor.com/weekly/surviving-home-invasions>

- “Russian roulette (Russian: Русская рулетка) is a lethal game of chance in which a player places a single round in a revolver, spins the cylinder, places the muzzle against their head, and pulls the trigger. "Russian" refers to the supposed country of origin, and roulette to the element of risk-taking and the spinning of the revolver's cylinder, which is reminiscent of a spinning roulette wheel.” [https://en.wikipedia.org/wiki/Russian\\_roulette](https://en.wikipedia.org/wiki/Russian_roulette)
- “Contract killing is a form of murder in which one party hires another party to kill a target individual or group of people. It involves an illegal agreement between two or more parties in

which one party agrees to kill the target in exchange for some form of payment, monetary or otherwise. Either party may be a person, group, or an organization. Contract killing has been associated with organized crime and with vendettas. For example, in the United States, the gang Murder, Inc. committed hundreds of murders on behalf of the National Crime Syndicate during the 1930s and 1940s. Contract killing provides the hiring party with the advantage of not having to commit the actual killing, making it more difficult for law enforcement to connect said party with the murder. The likelihood the authorities will establish that party's guilt for the committed crime, especially due to lack of forensic evidence linked to the contracting party, makes the case more difficult to attribute to the hiring party.”
